**Tools:** no tools required

### To make this design:

1. Unscrew the threaded ball at one end of the bracelet.
2. String beads as pictured, and screw on threaded ball.

### TIP:

This bracelet works best when completely covered with beads (no open space at the ends). Use large-hole sterling silver spacer beads (such as #24-731-730 or #24-731-744) as needed to completely fill the bracelet.

**NOTE:** The changeable bead cuff-style bracelet is available in two sizes:

51-515-S - small size which fits small/tiny wrists (about 2.3" across)

51-515-M - small/medium size which fits its medium wrists (about 2.5" across)
