Tools needed: Round-nose, chain-nose pliers, crimping pliers, flush cutters

To make this design:

1. Cut two 3 5/8" lengths of Beadalon and four 5/8" pieces of French wire.
2. Slip a crimp tube then a piece of French wire on a section of Beadalon; loop the end around a 14mm gold-filled link and back through the crimp. Using crimp pliers, crimp the tube to secure the length of Beadalon to the link. String beads as pictured: 4mm faceted carnelian, 4mm round B.C. jade, citrine rondelle, 4mm B.C. jade, 4mm carnelian, 4mm jonquil crystal bicone. Add a 10mm faceted carnelian then repeat the pattern in reverse. Finish this section with a crimp tube and a piece of the French wire. Wrap it around another gold-filled link and back through the crimp. Crimp the tube with crimping pliers.
3. Repeat step 2 with the second piece of Beadalon starting with the center piece link.
4. Make two each of the following beaded eye-pin links:
 - a. Citrine wheel, 4mm carnelian, potato pearl, 4mm carnelian, citrine wheel.
 - b. Egg-shaped carnelian, 4mm crystal, potato pearl, 4mm crystal, egg-shaped carnelian.
 - c. 4mm crystal, potato pearl, 6mm crystal, potato pearl, 4mm crystal.
 - d. 4mm carnelian, citrine wheel, 4mm carnelian, potato pearl, 4mm carnelian, citrine wheel, 4mm carnelian.
5. Connect link a. directly to the gold-filled link on the end of the Beadalon strand. Use jump rings to attach links b, c and d, followed by one piece of the toggle clasp, in that order. Repeat on second side.
6. Place a 4mm carnelian, the 14mm aquamarine, and another 4mm carnelian on the ball-end head pin. Attach to the center gold-filled link and finish with a wrapped-loop to create the center dangle.
